**Upcoming Mail Vote of All Members
Proposed Creation of the Indiana Workers Compensation Reinsurance Pool**

By a vote of eleven to one, the Governing Board of the Indiana Compensation Rating Bureau has recommended approval of a proposal to create a state-specific pooling mechanism to replace our current affiliation with the National Workers Compensation Reinsurance Pool.

Although the Governing Board would have the authority to make this decision, they decided it should be placed before all Member Carriers for consideration.

In early April 2004, you will be provided details about the proposed Indiana Reinsurance Pool, and asked to vote on behalf of your company. We ask that you give this matter priority consideration. In the interim, you may contact either of us for additional information.
